# WHO WE ARE?

- | We at Capstone enables our partners to shape the future.
- | At Capstone, our whole approach in any particular project is modeled by your needs, culture, and specific environment. Working in individual partnerships with you, we bring our unique cultural perspective, six decades of experience and multi-disciplinary expertise within an integrated work approach.
- | Externally, through collaboration with our partners, we deliver creative and efficient designs with exceptional engineering services built on bedrock of trust. Internally, Capstone holds diversity at our core, with driven employees who support one other to deliver exceptional outcomes for all stakeholders.

| Capstone is nimble enough to be a trusted partner that can provide high levels of local understanding and commitment to the markets, intimacy, innovation and agility to quickly respond to market and client changing conditions, yet big enough to be trusted to deliver large, complex and sometimes challenging programs of work, with a proven track record of delivery to key regional clients.

| **Our team** operate in 2 offices in the Middle East, Cairo and Kuwait. We seek progress to our communities.

# MISSION

01

**Striving** to provide our clients high-standards of services by focusing on quality, safety and commercial acumen.

02

**Providing** professional client-centric solutions that create an added value by meeting and exceeding quality requirements within time frame and budget.

03

**Building** and maintaining strong relationships with our clients.

03

# VISION

01

**Translating** our knowledge and expertise into an institution that evokes the feeling of success, trust, and reliance among our clients.

02

**Using** our combined experience, technical expertise, and local knowledge to succeed in delivering projects and services that contribute to the community, our economy and future generations.

03

**Providing** our clients and the construction industry the most innovative and sustainable solutions.

04

# VALUES

## SAFETY

Integrated safety management is key in ensuring people's well-being and the successfulness of the project delivery.

## QUALITY

Conform to all process and procedures in accordance with contract specifications and industry standards.

## EFFICIENCY

We proactively take measures to resolve complex situations and adjust plans and priorities to respond to changing circumstances.

## OPTIMIZATION

Resourceful value engineering ensures cost-optimization.

## TRANSPARENCY

Every important decision is examined with the client, and all stakeholders are involved in the process.

## WHAT WE DO?

| Capstone leverages the decades of experience accumulated by our team of experts to provide planning, design, consultancy, management & execution services for construction works & turnkey finishing, we embrace challenges to empower our communities.

| Our Quality, Health and Safety, and Environmental Culture.

| Our quality philosophy is derived from a simple goal: 'To recognize the needs of our customers and to fulfill them. We adopt global best practice standards in the delivery of our services and maintain an environment of self-evaluation and continuous improvement.

| We consider it a duty to design lasting architectural solutions that mitigate their lifecycle impact on environmental resources, as well as protect and enhance the wellbeing of the communities they serve. We actively encourage key project stakeholders to continually improve their own quality, health, safety and environmental performance standards and to share best practice as a means of improving and driving our industry forward, thereby helping them to protect lives, property and reputation. Every employee at Capstone forms part of the organization's safety team, creating a total safety culture.

| Our attention remains on quality execution to deliver the absolute best to our clients and each other by constantly reviewing our metrics

# RESPONSIBLE BUSINESS

| We play our role in driving progress towards global targets, by aligning our own business operations to global principles of human rights, labor, environmental responsibility, and anti-corruption and by embedding the sustainable development goals in all of the projects we offer our clients.

| Capstone operates within strict legal and ethical guidelines in all our activities. We provide a challenging and rewarding environment for all employees and maintain a sharp focus on professional excellence, health and safety, as well as environmental awareness. It is our mission to work together to shape future environments through innovation, creativity and collaboration.
